

I always insist on quality

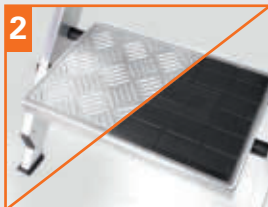

WA  **Ü**
Brilliant. Original.

The original makes the difference

Extra wide treads, without sharp corners or edges.

Non-slip aluminium chequer plate design or black synthetic covering.

Large corrugated plastic foot pads ensure stability and protect flooring.

Optional: set of 4 practical rubber-tyred castoring wheels. The ball-bearing-fitted wheels are spring-mounted so that the wheels retract under load, ensuring stable standing when the step ladder is in use.

Folding safety guard provides a secure hold – includes plenty of space to hold tools, and also has a bucket hook on each side.

Everything points to WAKÜ

Our claim: to design the most stable, safest and most comfortable step ladder for any application.

The result: Little Jumbo.

Little Jumbo aluminium safety step ladders provide a comfortable climbing angle and extra wide treads. They are light and space-saving when not in use. Trust in the ultimate in stability and proven WAKÜ manufacturing quality.

We reserve the right to make technical modifications to effect improvements.

Your indispensable universal helper

Little Jumbo shows its strengths for you

In the home or office, the workshop or in industry – step ladders have to meet extremely varied requirements. WAKÜ supplies a wide range of different models.

You're sure to find the right Little Jumbo for your needs.
