

Double ladder made of aluminium 4-part with nivello® stabiliser

Suitable for stairs.

Height-adjustable by hand from rung to rung. High stability thanks to spread securing with 2 high-tensile nylon belts.

Now standard: With 2 pieces 0,85m or 1,10m wide **nivello® stabiliser** with non-slip nivello® ladder shoes on both sides for extra safe stand and high work safety.

The **nivello® stabiliser** are enclosed loosely and is screwed down twice on the lower end of the side-rail.
