

STREAMLIGHT

Stylus® / NEW Stylus® Reach™

Stylus®
A flashlight for
the 21st century.

NEW
Stylus® Reach™
See what you've been missing.

STYLUS[®]

This ultra-slim, amazingly bright penlight features an LED bulb that's available in four colors, lasts 100,000-hours, and is visible from a mile away. For hands-free lighting, clip it to your hat or clothing. Plus, you can easily switch between momentary "blink" and constant "on". The virtually indestructible Stylus is constructed from an aircraft aluminum casing and is waterproof. With these features, plus a run time of up to 60 hours, it's no wonder why the Stylus is used by everyone from the avid recreationalist to the serious professional.

- Stylus[®] gold
- Stylus[®] silver
- Stylus[®] black

- High-intensity, 100,000-hour LED bulb visible from a mile away
- Run time of up to 60 hours
- Momentary "blink" or constant "on" switching
- Waterproof
- Lifetime warranty

Versatile pocket-clip

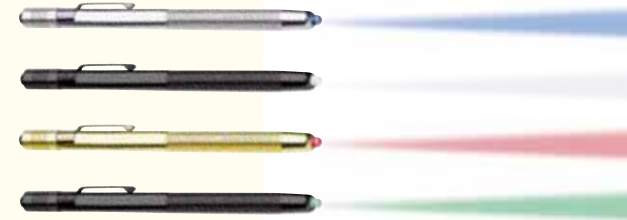

Accessories

Neck lanyard

Glare guard sleeve

Available in gold, black, or silver with a choice of 4 brilliant LED colors.

NEW STYLUS[®] REACH[™]

The new Stylus Reach has the same great features as the Stylus but has a flexible cable extension, allowing you to get deep into the tightest spots. With a waterproof, aircraft aluminum casing and a tough PVC shielded cable, the Stylus Reach is built to illuminate those unforgiving, hard-to-reach areas. It's unbreakable, 100,000-hour LED - which never needs replacing - is available in white or blue.

- Stylus[®] Reach[™] black
- Stylus[®] Reach[™] silver

- Flexible, insulated cable extension allows 14 inches of reach
- Unbreakable, 100,000 - hour LED that never needs replacing
- Run time of up to 60 hours
- Momentary "blink" or constant "on" switching
- Waterproof
- Lifetime warranty

White LED

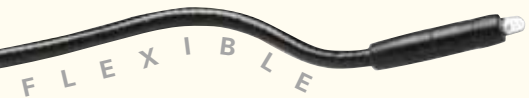

Most popular for all-around use.

Blue LED

Widely used for industrial and automotive applications.

WHICH LED COLOR IS RIGHT FOR YOU?

- **White.** Most popular for all-around use. Very close to natural light, which allows you to see "true color."
- **Blue.** Extremely bright yet easy on eyes. Ideal for various industrial and automotive applications. Also, commonly used in forensics.
- **Green.** Extremely bright. Great for outdoors because it preserves night vision. For hunters, it won't spook game.
- **Red.** Ideal for signaling. Preserves night vision.

These are just some of the applications you can use with these colors. We're discovering and developing new ones all the time.
